### WEBSITES:

[Evolve Entertainment](#)

[Skoop & Derre](#) (in progress)

[United We Talk Flash website](#) (cancelled)

[Natalia Mesa Bush Flash website](#) // I've done gallery script

## WEB APPLICATIONS:

### SERCON

Sercon (System for Evaluating Rivers for Conservation) is scientific method for evaluating river conservation needs. Part of it is RHS (River Habitat Survey). Both methods are widely accepted in European Union. I am transforming both methods into Web and Desktop application (Flex + Apollo). RHS is work in progress and it is available at <http://www.pleasures.co.yu/gvozden/RHS/RHS.html>

\* link is for viewing purpose only, copyright of Faculty of Sciences, Novi Sad, Serbia

### Photos Approval System

Powerfull flash application for managing approval of large number of photos helping photographers to shorten decision time with clients. Complex project involving user management system with groups, messages, job (galleries) management and approvals, retouching requests and print and cd ordering.

Screenshots available at <http://www.hagane-studio.com/images/approval/>
